## The Daily Standard. Wednesday, April; 26, 1871

The Railway. The beginning, end, and middle of the debate in the Dominion House of Commons on the admission of British Columbia was the railway. The Opposition were not clearly told how it was to be built, nor what it would cost; and consequently they indulged in a good deal of wholesale denunciation. Some approximate idea of the matter was however, put forward by the Governmeet; but it was very difficult to unravel it; and possibly that was one rea-son that the Opposition did not make better work than they did in opposing it. When the debate was over however Sir George E. Cartier introduced the follow-

ing resolution : Resolved,-That the railway referred to in the address to Her Majesty concerning the union of British Columbia with Canada, adopted by this House on Saturday, the 1st of April instant, should be constructed and worked by private enterprise and not by the Dominion Government, and that the public aid to be given to secure that undertaking and to be given to secure that undertaking should consist of such liberal grants of land. and such subsidy in money or other aid not unduly pressing on the industry and resources of the Dominion, as the Parliament of Canada shall hereafter determine.

Sir Francis Hincks had said during the debate that if it were to be built by berrowing the money, it would not be undertaken now. Hence the resolution of Sir Geerge E Carner, explains the Government scheme. It is to be constructed and worked by private enterprise, and the company or companies who may un-dertake to construct and work it, will be assisted by donations of land, and subsidy possibly of so much per mile. Thanks to Sir George E. Cartier, we are told where it is to start from on each side. Lake Nipissing is the starting point on the Canada side. It is several hundred miles nearly due north from To ronto, and about the same distance west of Montreal. Victoria is the point on this side. This to say the least is satisfactory to the people on this side of the continent. The line is estimated to be 2500 miles long, by some, and by others including curvatures at 3000 miles. The lowest cost that any one put it down at was \$100,000,000. Sir George E Cartier said that 64,000,000 acres of land would be set apart for its construction, of that, it was expected that Ontario would donate about nine million of acres along the north side of Lakes Huron and Lake Superior,—British Columbia 15,-360,000 acres; and the balance would be supplied out of Manitoba and the Northwest Territory, which would be about 40,000,000 of acres. But Ex-Governor McDougal maintained that the entire quantity of land fit for culture in Song the whole Northwest Territory did not exceed 40,000,000 of acres. Hence, if have to be given up, to pay for constructing the railway. That however will scarcely be done; and consequently it is not difficult to see that Sir George's figures will have to be reduced. Land, nevertheless is to be given in part payment. Sir F. Hincks, when questioned closely as to the money, said that the maximum annual charge on the revenue would not exceed \$1,000, applied to the money.

Signature of the commodition of the commodities of the commodition of the commodition of the commodition of the commodition of the have to be given up, to pay for construct-ing the railway. That however will 000 or \$1,250,000. Now, whether that amount is to be expended in interest and sinking fund on a loan, or will be the total sum expended we have not been THE H. B. CO'S STEAMER able to discover by the debate. The tendency of a remark of Mr. Anglin, who made about the best speech in the Opposition, would lead one to suppos that a million a year was to he borrowed, at an annual cost of \$75,000. But we cannot imagine how the railway is to be built with such a subsidy as that, in ten years. If a company were subsidized at \$10,000 per mile, it would only be able to build 100 miles a year, and that would take twenty five years to build the road, nstead of ten. To construct, it however. only eight years is the contract time, after they commence, or after the surveys have been made. No company, however, land donations or not, is likely to be willing to build the road for such a subsidy. Hence, we conclude that a far larger sum than one million of dollars will have to be paid if ever the road shall be completed within ten years from the date of Union. It is not improbable that some large scheme of immigration and colonization may be associated with the construction of the railway, and that erial Government may in some such way come to the aid of the Dominion. At any rate, it is settled that the railway is to be built; and we entertain no doubt whatever that it will be done. Its construction has become a political necessity, and the Dominion has either to build it or tumble to pieces; and we have no fear of the latter event.

FRESH ARRIVALS.—A.B. Gray has received, per steamer Pacific, large additions to his stock of dry goods, comprising silk mantle velvets, velveteen, black silks, colored satins dress goods, linens, cottons, jackets, kid gloves, skirts, umbrellas, &c., &c., together Government street, March 9th, 1871. \*

ROBERTS, Tailor, Government street oris, next door to London House, begs to Victoria, next door to London House, begs to inform his friends and public of Victoria generally, that he has just received, direct from London, ex "Pacific," a choice selection of beavers, broad cloths, Scotch and English tweeds, fancy silk velvet, figured silk and eassimere vestings, which he is prepared to make to order for the Lowest Cash Prices. \*

Memory presides over the past. Fell a Coffee over the present. The first lives in a rich temple hung with glorious trophies, and lined with tombs, but Fell's Coffee has but one shrine and that is every breakfast table. Its aroma walks the earth like a spirit and can be found for sale at every respectable dealers in British Columbia. Beware of purious imitations.

LINERY. By last steamer a first-class ner arrived from Europe for the London

DR. CHING FUN—A CARD—EDITOR
STANDARD:—Through the medium of your
paper I want to state the very great good that has been
done me by Dr. Ching Kun of this city, nxet door Kwong
Los & Co. For 24 years I suffered with neuralgis on
the brain, which baffied the skull of three first-class
American physicians. Latterly bronehitis attacked my
right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months
treatment I am a well man and feet that I cannot sound
the eminent Chinose gentleman's praises too loudly, so
that all my countrymen similarly affecteed may visit
and find relies. Respectfully.
